

NeuroHub Community Ltd

Sponsorship Prospectus 2026

Partner with a neurodivergent-led organisation

Built by neurodivergent people. For neurodivergent people.

NeuroHub Community is a neurodivergent-led consultancy, training, and community organisation based in the UK. We provide identity-first, rights-based support for Autistic and neurodivergent people, their families, and the professionals who work alongside them. Everything we do is grounded in lived experience and a genuine commitment to changing systems — not people.

neurohubcommunity.org

Who We Are

NeuroHub Community Ltd is a neurodivergent-led organisation founded in January 2026. Everything we do is shaped by identity-first, rights-based values and rooted in the understanding that distress is contextual — not pathological. We do not view neurodivergent people as problems to be fixed. We view systems, environments, and relationships as things that can and should be changed.

We work with neurodivergent adults directly through one-to-one consultancy, online courses, and community membership. We also provide bespoke mentoring and consultation for families, and specialist training for professionals working alongside neurodivergent people. Our practice draws on the double empathy problem, monotropism, neuroqueer theory, and an ecosystemic understanding of distress.

We were founded with a clear purpose: to create a genuinely neurodivergent-led space where Autistic and neurodivergent people, families, and professionals can access support that actually respects who they are. In the months since our founding, we have grown into a global community that centres authenticity, peer connection, and empowerment.

Our Reach and Impact

- A growing global online community connecting neurodivergent people across the UK and beyond
- One-to-one consultancy and mentoring for individuals and families
- Specialist training for professionals across healthcare, education, and social care
- An expanding library of courses, toolkits, and mindfulness resources
- Two podcast series covering Autistic identity and neurodivergent perspectives
- Regular live events including the annual Autistic Mental Health Conference
- A rich blog with hundreds of articles on Autistic experience, wellbeing, and systems change

Why Sponsor NeuroHub Community?

Sponsoring NeuroHub Community means more than visibility. It means standing alongside a neurodivergent-led organisation that is genuinely changing how Autistic and neurodivergent people are understood, supported, and heard.

We are independent, values-led, and growing. Our audiences include Autistic adults, parents and carers of neurodivergent people, allied health professionals, educators, social workers, and advocates — people who care deeply about who they choose to support and who choose to support them.

Reach a Targeted Audience Connect directly with neurodivergent people and those who support them — an audience that values authenticity and ethical business.	Demonstrate Your Commitment Show your organisation's values in action by supporting neurodivergent-led work and the community it serves.	Make a Real Difference Your sponsorship directly funds the programmes, resources, and community spaces that neurodivergent people rely on.

What All Sponsors Receive

- Named listing on the NeuroHub Community website as a sponsor of the specific service, podcast, or event you support
- Signposting link to your website or chosen web presence
- Recognition within the NeuroHub community as a values-aligned supporter of neurodivergent-led work
- Verbal mention and signposting at the start of each episode or event you sponsor (podcast and live event sponsors)

Sponsoring Our Services

Our standard service sponsorships allow organisations and individuals to support a specific NeuroHub programme or resource for £100 per month. In return, you will be listed as a sponsor of that service on our website with a link to your chosen web presence.

Below is an overview of the services available for sponsorship:

Service	What Sponsors Support
Autistic Identity Programme	One-to-one support helping Autistic people explore and affirm their identity — your sponsorship helps make this accessible.
Mindfully Divergent Programme	Mindfulness-based one-to-one programme designed for neurodivergent nervous systems.
NeuroHub Online Community	A moderated global peer community platform where neurodivergent people connect and support one another.
Family Support Service	Whole-family consultancy using a six-point framework to support families of neurodivergent people.
Re-Storying Autism Workbook & Video Course	A seven-lesson course and workbook co-created with the Autistic community to help people reclaim their own narrative.
Embracing Our Autistic Selves Course	An in-depth course supporting Autistic people to understand and embrace their Autistic identity and bodymind.
Supporting Autistic People Course	Practical, values-driven training for professionals, families, and Autistic people using the Six-Point Framework.
Professional Gateway	Neurodivergent-led training and resources for professionals across healthcare, education, and social care.

Mindfulness Meditations Library	A growing library of mindfulness content designed specifically for neurodivergent nervous systems.
Circles of Control Workbook & Toolkits	Practical self-advocacy and empowerment resources available through the NeuroHub shop.

Service Sponsorship — £100 per month

Sponsor any of the services above and your organisation or name will be listed on the relevant service page on our website, with a link to your chosen web presence. You will also be recognised as a values-aligned supporter of neurodivergent-led work within our community.

Minimum 12 months commitment

To discuss which service best aligns with your interests and values, please get in touch: david@neurohubcommunity.org

Sponsoring Our Podcasts

NeuroHub produces two podcast series that explore Autistic identity, neurodivergent experience, and the wider questions that matter to our community. Both are available on all major podcast platforms and attract engaged listeners from across the neurodivergent community and the professionals who work alongside them.

Autistic Identity With NeuroHub

A podcast dedicated to exploring what it means to be Autistic in the world today — from identity and self-understanding to community, systems, and lived experience. Honest, thoughtful, and rooted in neurodivergent voices.

The Mycelial Mind

Inspired by the underground networks through which forests communicate and share resources, The Mycelial Mind explores the connections between neurodivergent experience, mental health, ecosystems, and the wider world. A space for deeper thinking about how we relate to ourselves, each other, and the systems we live within.

Per Episode	Monthly (Approx. 4 eps)	What You Support
£30	£100	Impact
• Named mention at episode start • Signposting to your website • Listed on episode show notes • One-off or multiple episodes	• All per-episode benefits • Named on website as podcast sponsor • Link to your web presence • Best value for regular sponsors	• Production & hosting costs • Autistic-led content creation • Free access for the community • Platform for neurodivergent voices

Podcast sponsors receive a verbal mention and signposting at the start of each episode they sponsor, together with a listing on the NeuroHub website as a named supporter of the relevant series. Monthly sponsors are listed for the full calendar month regardless of episode count.

This is an opportunity to reach a genuinely engaged audience of neurodivergent people, allies, families, and professionals — people who listen closely and care about who supports the voices they trust.

Sponsoring NeuroHub Live Events

NeuroHub Live is our series of online and in-person events, bringing the neurodivergent community together for learning, connection, and conversation. Events include community meets, specialist talks, Q&A sessions, and our flagship annual conference.

Annual Autistic Mental Health Conference

Our 2nd Annual Autistic Mental Health Conference takes place 14–16 August 2026, running as a hybrid event with in-person sessions in Brighton. This is a significant event in the Autistic and neurodivergent calendar — a space for Autistic people, allies, and professionals to come together and meaningfully engage with the intersection of Autism and mental health from a perspective that centres Autistic voices and lived experience.

Community Meets and Online Events

We run regular NeuroHub Live online events throughout the year, covering topics that matter to our community. These include specialist sessions, peer discussions, and collaborative learning spaces. All events are designed to be accessible and genuinely inclusive.

Per Event	Monthly	What You Support
£30	£100	Impact
• Named mention at event start • Signposting to your website • Listed on event page • Single or multiple events	• All per-event benefits • Named on website as events sponsor • Link to your web presence • Covers all events that month	• Accessible event production • Neurodivergent-led programming • Free and low-cost community access • Inclusive spaces for connection

Event sponsors receive a verbal mention and signposting at the start of each event they sponsor, together with a listing on the NeuroHub website as a named supporter of NeuroHub Live. Monthly event sponsors are listed for the full calendar month. Minimum 12 Months Commitment

Conference Sponsorship

Sponsoring the Annual Autistic Mental Health Conference is a particularly meaningful opportunity to support Autistic-led scholarship, community voice, and accessible education at scale. If you are interested in conference sponsorship, please contact us directly to discuss options.

NeuroHub Live — Monthly	£100 / month	Website listing + event mentions throughout month

How to Become a Sponsor

Becoming a NeuroHub Community sponsor is straightforward. Simply get in touch to let us know which sponsorship opportunity interests you, and we will take it from there.

1	Contact us by email at david@neurohubcommunity.org to express your interest and tell us which service, podcast, or event you would like to sponsor.
2	We will confirm the details, arrange your listing on the NeuroHub website, and ensure your mention is included in the relevant episodes or events.
3	We will send a simple invoice for the agreed sponsorship amount and get you set up as a listed sponsor.
4	Your listing goes live, your mentions begin, and you become a named supporter of neurodivergent-led work.

Get in Touch

We would love to hear from you. Whether you are an individual who wants to support a specific programme, or an organisation looking to align your brand with values-led neurodivergent-led work, there is a sponsorship option for you.

Thank You

Sponsoring NeuroHub Community means investing in a movement that is genuinely changing how neurodivergent people are understood, supported, and valued. We are not here to make people more palatable to a world that already should be making room for them. We are here to walk alongside them.

Your sponsorship makes that possible.
